

Executive Summary

AP-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

1. Introduction

As a Participating Jurisdiction and Entitlement Community receiving annual funding allocations from the Federal government to fund local housing and community development needs, the City of Davis is required to develop a Consolidated Plan once every five years. The Consolidated Plan serves as a comprehensive guide on how the City intends to utilize the allotted federal funds to address national objectives in a manner that will produce the greatest measurable impact on the local Davis community. The most recent Consolidated Plan was completed for the five-year period between 2015 and 2020. For each year within the Plan, the City is required to prepare a one-year Action Plan to notify citizens and the US Department of Housing and Urban Development (HUD) of the City's intended actions during that particular fiscal year. The annual Action Plan includes citizen and stakeholder input and is due to the HUD field office in San Francisco 45 days prior to the beginning of the fiscal year. The City of Davis has prepared a Fourth Year Action Plan covering the time period from July 1, 2018 to June 30, 2019.

The Plan continues to address the Consolidated Plan's three basic goals of providing decent housing, a suitable living environment, and expanded economic opportunities, as detailed in the next section. The jurisdiction's performance will be evaluated by HUD in meeting these goals. The Plan states how it will continue to work towards meeting these goals for all community development programs and housing programs.

2. Summarize the objectives and outcomes identified in the Plan

This could be a restatement of items or a table listed elsewhere in the plan or a reference to another location. It may also contain any essential items from the housing and homeless needs assessment, the housing market analysis or the strategic plan.

The discussion of the annual objectives and outcomes is included in the AP-35 Projects section of this document. Overall, each project addresses goals listed within the Consolidated Plan; decent housing, suitable living environment, and expanded economic opportunities. Each goal is described below:

Goal 1: DECENT HOUSING, which includes:

- Assisting homeless persons in obtaining affordable housing;
- Assisting persons at-risk of becoming homeless;
- Retaining the existing affordable housing stock; and
- Increasing the availability of affordable permanent housing in good condition to low-income and moderate-income families and without discrimination on the basis of race, religion, creed, ancestry, national origin, religion, age, sex, sexual preference, marital status, family status, source of income physical or mental disability, Acquired Immune Deficiency Syndrome (AIDS) or AIDS-related conditions (ARC), or any other arbitrary basis.

Goal 2: A SUITABLE LIVING ENVIRONMENT, which includes:

- Increasing access to quality public and private facilities and services; and
- Restoring and preserving properties of special historic, architectural, or aesthetic value.

Goal 3: EXPANDED ECONOMIC OPPORTUNITIES, which includes:

Establishment, stabilization and expansion of small businesses (including micro-businesses).

3. Evaluation of past performance

This is an evaluation of past performance that helped lead the grantee to choose its goals or projects.

At the end of each fiscal year, the City must also prepare a Consolidated Annual Performance and Evaluation Report (CAPER) to provide information to HUD and Davis citizens about the year's accomplishments. This information allows HUD, City officials, and the public to evaluate the City's performance and determine whether the activities undertaken during the fiscal year helped to meet the City's five-year goals and to address priority needs identified in the Consolidated Plan and the annual Action Plan. This performance report, prepared with public review and comment, is to be submitted to HUD annually no later than 90 days after the conclusion of each program year.

In evaluating the past performance of program year 2017/2018, the City accomplished the following activities:

- Continued efforts (implementation of the ten-year plan) to end and prevent homelessness in Yolo County;
- Completed the construction of a new 62 unit multi-family affordable rental complex;
- Continued to work with ADA Community Advisors group, city staff and the ADA Self Evaluation and Transition plan to identify and address needed repairs and other accessibility improvements at various locations in the public right-of-way throughout the City, including public buildings;
- Continued to provide shelter for homeless individuals and families, as well as meals and other support services and leveraged federal dollars to receive private local funding to expand services to the homeless, including the establishment of a private and locally funded program based on a housing first model;
- Assisted the elderly with access to healthcare and support services to live independently;
- Provided assistance to persons who have physical, mental and/or developmental disabilities;
- Provided advocacy and support services for victims of domestic violence;
- Grew organic produce and eggs for other public service organizations that assist individuals and families that meet the income limits;
- Continued to implement the City's Fair Housing program, serving 200 citizens during the program year.

These activities will be documented in more detail in the City's Consolidated Annual Performance and Evaluation Report (CAPER), which is anticipated to be available for public review in September 2018.

4. Summary of Citizen Participation Process and consultation process

Summary from citizen participation section of plan.

The City of Davis' citizen participation process for the development of this Fourth Year Action Plan was coordinated by city staff working with the Social Services Commission, a citizen advisory board to the City Council. Public input was gathered at meetings and public hearings beginning with the Commission meeting of November 20, 2017 held to analyze and make recommendations on community critical needs for the use of CDBG and HOME funds for the upcoming year. There were no changes to the critical needs list from last Fiscal Year. The City Council reviewed and adopted this list of needs in December 2017, and approved issuance of the Request for Proposals (RFPs) in December 2017 to begin accepting CDBG and HOME applications. Staff conducted a public workshop on January 11, 2018 for potential applicants to provide information

about the availability and potential uses of CDBG and HOME funds, and gathered public input regarding possible projects, while working with potential applicants to ensure the submittal of eligible activities. The Social Services Commission held a public hearing and conducted their final deliberations and funding decisions on March 19, 2018.

Public hearing notices were published in the Davis Enterprise, a large circulation county-wide newspaper, and notice was sent via the city's listserv to approximately 150 interested community members. A summary of the draft Fourth Year Action Plan and notice of its availability were published in the Davis Enterprise on May 18, 2018. In addition to the live meeting televised on the local cable government channel, which was accessible through streaming video on the City's website, all documents were made available at City offices for public review and on the City's website.

Citizen comments on the proposed Fourth Year Action Plan included:

- Three individuals made comments during the Public Hearing at the Social Services Commission meeting. Public and commissioner comments are summarized in question #5.
- Over 15 people attended the City Council meeting on April 10, 2018 when the Public Hearing was held, although only one person spoke during the Hearing. Council comments included the limited number of dollars available for worthwhile public service projects, the importance of the CDBG dollars in particular in providing important services to the community and the request for staff to advertise more widely in the community to seek participants for the ADA Advisors Committee to advise staff.

Other than questions by applicants about the timeline and federal budget, no comments were received during the advertised 30 day (May 18, 2018 to June 18, 2018) public comment period held for the draft Action Plan.

5. Summary of public comments

This could be a brief narrative summary or reference an attached document from the Citizen Participation section of the Con Plan.

Beginning on May 18, 2018 and ending June 18, 2018, a draft of the Fourth Year Action Plan will be made available for public review electronically on the City's website at: <http://cityofdavis.org/city-hall/city-manager-s-office/housing-and-grants-management/grants-management>, and by hard copy on request only at the City Clerk's Office, 23 Russell Blvd., Davis CA 95616. Public computers are available for

online viewing at City Hall. On May 18, 2018, the availability of the draft Plan was noticed in the local newspaper, the Davis Enterprise. Notice was also placed on the City's website and will remain there until the conclusion of the process.

Three public hearings were held to provide citizens and community groups an opportunity to make comments and ask questions about the Fourth Year Action Plan. The initial public hearing was conducted at the City Council meeting on December 19, 2017 for the purpose of finalizing the Critical Needs List and directing staff to issue the annual Request for Proposals (RFP). This first public hearing was noticed in the Davis Enterprise on December 8, 2017, and on the City's website. No comments were received at this meeting directed towards the annual action plan. The second public hearing was conducted before the Social Services Commission at their meeting on March 19, 2018. Comments received at the meeting were directed towards public support of specific proposals under consideration; all three commenters represented the agencies about which they spoke and all three noted how important the CDBG public service funding was for their agencies.

The City Council conducted the final public hearing in this process on Tuesday, April 10, 2018 in the Community Chambers at 23 Russell Boulevard, Davis, California. The public hearings for the Social Services Commission and the City Council were noticed in the Davis Enterprise on March 9, 2018 and on March 30, 2018, in addition to posting the hearings the City's website and sending notifications via the city's listserv.

One potential applicant, Davis Oral Health, asked initial questions about its potential proposal. No other group requested technical assistance in developing a proposal for the Fourth Year Action Plan. Through the City's annual request for proposals process, technical assistance is provided to community groups interested in submitting funding requests under the CDBG and HOME programs. Technical assistance is provided in the form of workshops and direct staff responses to phone calls and emails.

6. Summary of comments or views not accepted and the reasons for not accepting them

All comments are accepted.

7. Summary

The City has received its 2018/2019 allocation, completed all steps of the necessary and desired public process, and is prepared to appropriately expend the 2018/2019 allocation on CDBG eligible projects.

AP-10 Consultation – 91.100, 91.200(b), 91.215(l)

1. Introduction

Coordination with federal and local agencies, along with non-profit and for-profit organizations providing services to the low- and very-low income in the community is essential to the existence of the programs, as well as the best way to ensure the gaps in services are being addressed. Through an integrated access system, the city is moving towards a model of service that is connected and communicates on all levels throughout the county.

Provide a concise summary of the jurisdiction’s activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(l))

The City of Davis regularly supports local service providers through its funding of public service agencies and housing projects. For example, the City provides ongoing assistance to Yolo Community Care Continuum (YCCC) by partially paying for staff that provides in-home support to persons with serious mental illness. Services include teaching independent living skills such as meal planning, shopping, cooking, cleaning, and laundry. YCCC uses a scattered site congregate model, providing housing to residents with corresponding support services. Each resident has his/her own room and the kitchen and common areas are shared. In 2006, YCCC in partnership with Community Housing Opportunities Corporation, a local nonprofit housing organization, acquired Homestead Cooperative which also offers individuals their own room, shared living room and kitchen. The acquisition of Homestead made an additional 21 affordable units available to people with a serious mental illness that are supported by the services of YCCC. Beginning in 2011 and ending in 2013, the City assisted YCCC in renovating the Farmhouse, supportive treatment housing for 10-15 very low-income individuals diagnosed with mental illness, returning to the community after hospitalization. In addition, YCCC, through separate funding streams, added an extra bed to their programming at the city-owned Pacifico development. The City works to coordinate support services with housing providers whenever possible.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

The City of Davis is an active member of the Yolo County's Continuum of Care, called the Housing Poverty Action Committee (HPAC). Over the past year, the City has worked on several efforts with HPAC to address the needs of those living homeless and at risk of homelessness in Davis. When feasible, dollars through CDBG and HOME are used to supplement our goals to provide more permanent supported housing. In March of 2017, the Davis City Council unanimously adopted a low barrier/no barrier approach to ending homelessness.

Major efforts include:

- **Continuation of New Pathways**, a collaborative effort, to house individuals who are chronically homeless and provide them with supportive services. Modeled on the successful Bridge to Housing effort in nearby West Sacramento, New Pathways provides bridge housing and supportive services to individuals who are chronically homeless. Four HPAC members -- the County, the City, Yolo County Housing and Davis Community Meals and Housing -- work together in a housing first effort to put a roof over the heads of those most vulnerable while permanent housing is secured and to connect them to supportive services. To date, seven (7) long term chronically homeless have graduated into permanent housing and continue to remain permanently housed.
- **Getting to Zero grant funding from the Sutter Health Foundation**. In partnership with HPAC colleagues, Davis Community Meals and Housing and Yolo County Housing, the City of Davis received funding in December 2016 from the Sutter Health Foundation to expand the New Pathways initiative to a more comprehensive Davis Pathways program for adults who are chronically homeless. In addition to the 4-person bridge housing described above, Davis Pathways provides a paid employment training program, a bridge housing voucher program administered by the Housing Authority, and robust Housing Authority case management focused on housing retention.
- **Collaboration on Davis Point-in-Time Study**. The City and Davis Community Meals, a nonprofit agency located in Davis, actively participated in the HPAC sub-committee to design and implement the Point-in-Time Study to count the number of individuals living homeless in our region. Based on the outcome, HPAC uses this information to improve our strategic plan to meet the needs of homeless individuals, families, and those at risk of homelessness.
- **Request for HUD Technical Assistance**. Under leadership from Davis, HPAC requested technical assistance from HUD to help with maximizing the amount of funding received through the Continuum of Care application. Approved by HUD, a city of Davis representative along with County staff have spearheaded the efforts with TAC (Boston) experts to develop an agenda for the work to be accomplished through this technical consultation. The desired outcome is the receipt of additional federal funds to serve those in need in our community.

- **Serving Homeless Families.** The City continues to support the Interfaith Winter Rotating Shelter. In addition, along with HPAC colleagues, and a generous business owner, the City has developed a fall back plan to house homeless families who can no longer be accommodated safely (due to space considerations) within the City's Interfaith Winter Rotating Shelter as necessary.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS

Local service providers assess the use of ESG funds based on pressing community needs, including gaps in service, as identified in the 10 Year Plan to End Homelessness. The Continuum of Care uses HMIS to measure outcomes and coordinate services throughout the County of Yolo.

2. Describe Agencies, groups, organizations and others who participated in the process and describe the jurisdiction’s consultations with housing, social service agencies and other entities

They were consulted for information about the needs of victims of domestic violence and trafficking within Davis and greater Yolo County. Through the development of the Consolidated Plan and a review of current and future city resources for public service, the city plans to meet with providers and the community to identify local services gaps and form local objectives to address needs and reduce homelessness. Empower Yolo will be working with the city in this process. |

Identify any Agency Types not consulted and provide rationale for not consulting

During the development of the Consolidated Plan covering this Action Plan program year, all agencies providing public services were invited to participate in a needs workshop and also at the Community Needs discussion at the Social Services Commission. In addition, staff has reached out to service organizations during the application process to discuss needs of vulnerable populations within the city.

Other local/regional/state/federal planning efforts considered when preparing the Plan

|-------------------|---|--|
| Continuum of Care | Yolo County Homeless and Poverty Action Coalition | While the City of Davis is participating in a regional effort with Yolo County and the cities of West Sacramento, Winters, and Woodland to address homelessness on a regional basis, the agency does have specific goals to reduce and end homelessness in Davis. These goals overlap with the larger goal to reduce and end homelessness in all of Yolo County. |

AP-12 Participation – 91.105, 91.200(c)

1. Summary of citizen participation process/Efforts made to broaden citizen participation Summarize citizen participation process and how it impacted goal-setting

Citizen participation is a critical part of the Annual Action Plan process, including developing and amending the plan, as well as reporting on program performance on an annual basis. Consultation, public hearings, workshops, citizen surveys and opportunities to provide written comments are all a part of the strategy in obtaining citizen input. Feedback from the public, specifically from the Community Needs Survey, often highlights areas of focus that may otherwise go overlooked when setting goals for CDBG/HOME funding.

Expected Resources

AP-15 Expected Resources – 91.220(c)(1,2)

Introduction

CDBG and HOME funds only provide a portion of the monies necessary to implement the activities and programs in the Fourth-Year Action Plan, and for the duration of the planning period. The federal Supportive Housing Program is anticipated to provide ongoing support and additional funds will come from other sources that are non-federal in order to implement the proposed activities and projects.

Table 5 - Expected Resources – Priority Table

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how

matching requirements will be satisfied

All of the affordable housing projects will be leveraged with other sources beyond the CDBG and HOME programs. It is expected that local projects will compete for state and federal tax credits, Housing Trust Fund money from affordable housing in-lieu fees, and private grant funding over the life of the Action Plan. In addition, local land donations from private developments are reasonably expected to be available to assist the identified affordable housing projects. However, as tax credits become more competitive and available funding for affordable housing projects is cut or eliminated, as with California Redevelopment Agencies, the city is limited to focusing on one or two projects at a time, and even so, identifying adequate financing for a project can take years.

If appropriate, describe publicly owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

In 2014, the City issued Requests for Proposals for the remaining city-owned land dedication sites at 4100 Hackberry Place and 2990 Fifth Street. Each site was awarded to developers. The project at 4100 Hackberry Place produced eight affordable ownership housing units, all of which have been sold to 19 low to moderate-income individuals, three homes containing families. The 2990 Fifth Street will be the site of a 90-unit affordable rental complex focused on serving extremely low-income and special needs households. That site is currently in design review and in the process of securing funding. In addition, the City is working to transfer ownership of the Pacifico affordable housing rental complex, located at 1752 Drew Circle, to Yolo County Housing, which currently manages the project. This site, which will be renamed Symphony Apartments, will also be rehabilitated using local funding. This project supports other housing goals related to providing permanent supportive housing and preserving extremely low income housing. In addition, several projects that would include both rental and ownership affordable units are in the proposal stage in the community. Clarity on whether those projects proceed and how many affordable units they include will come throughout the 2018-2019 program year.

Discussion

The City makes it a priority to leverage resources so that all funding entities can maximize their contributions. Each of the three above mentioned projects are the result of a combination of funding sources – local, state, Federal, and/or private, with the dissolution in California of redevelopment, municipalities like Davis, must be increasingly vigilant in seeking a variety of funding sources and resources to achieve the needs identified in the plan.

Table 7 - Project Information

Describe the reasons for allocation priorities and any obstacles to addressing underserved needs

The allocation of priorities is based on many factors; the consolidated plan goals, the critical needs list established by the Social Services Commission and the City Council, and the types of funding applications received for the program year.

Addressing unmet needs is dependent on funding availability, available partnerships, as well as volunteer opportunities, data collection and community input.

On April 30, 2018, the City of Davis was advised that one of its Public Service providers will be discontinuing its services. In order to ensure that clients continue to receive treatment services other local providers have agreed to provide services for many clients that began in May 2018.

Affordable Housing

AP-55 Affordable Housing – 91.220(g)

Introduction

The city is planning to assist one rental rehabilitation housing project in the upcoming year using CDBG funding from program year 2017-18. HOME funds will assist one project with rental assistance/rehabilitation to qualifying recipients in program year 2018-19. There are also three affordable ownership projects being developed, one on a city-donated site.

Discussion

For program year 2017-2018, the City of Davis planned to assist in the rehabilitation of CHOC's Sojourner Truth rental complex, specifically providing CDBG funds necessary to repair the structural and water damages to the building. Due to the urgency of the repairs and the impending winter season, CHOC decided to use other funding for the Sojourner project. CHOC is instead requesting reallocation of these funds for 2018-19 program year for much needed rehabilitation repairs for their Rosa Parks

project. These funds would be used to rehabilitate the buildings domestic water plumbing. Existing copper piping is aged and broken in various places. Implementing the necessary repairs will preserve the health and safety of very low and low income residents of the affordable housing units and implement a long-term reliable solution. Total number of the low-income beneficiaries is 45 for the ten-unit complex.

HOME funds will be directed to an affordable housing project that will help in meeting the City's demand for affordable housing, including permanent housing for formerly homeless and/or special needs housing. The City is currently evaluating three (3) potential projects.

Affordable housing ownership housing units are also being provided under the City's inclusionary requirement. Additional affordable ownership and rental units may be developed under the city's inclusionary requirements in the upcoming year, but development and completion are still uncertain.

AP-60 Public Housing – 91.220(h)

AP-65 Homeless and Other Special Needs Activities – 91.220(i)

Introduction

The City of Davis partners with local service organizations and the County in responding to issues of homelessness and poverty, including through the provision of funding and site assistance, public outreach and education, policy development and strategic planning, and coordination and collaboration.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

Through CDBG public service funds the City assists Davis Community Meals and Housing, a local non-profit agency, with the provision of two programs that address reaching out and conducting a needs assessment with individuals and families within the community who are homeless. The City funds Davis Community Meals and Housing (DCMH) in their outreach program that allows individual staff and volunteers to go to areas of the city where homeless individuals are located and reach out to them directly to offer services. DCMH is completing this program in coordination with Yolo Community Care Continuum's GAP program and the county's Crisis Intervention Project who provide similar programs with a focus on homeless individuals with mental illness. The City also funds DCMH and its ongoing administration of the local Shelter and Resource Center. The resource center is a place where anyone in need can access during the week to receive services, be assessed for additional need gaps, and get referred to other resources. Staff at the resource center provide an individual review and assessment, including assistance in connecting individuals to services. Each of these programs will be funded in this program year.

Davis Pathways Program. The City has received private funding from Sutter Health Care Foundation to match local funding designed to increase permanent supportive housing for its chronically homeless population. The foundational efforts by the work done through CDBG funding has made this effort possible.

The funds are used to support Davis Pathways, a program that aligns private and public funding and resources to support no-or-low barrier access to housing for an estimated 45 individuals over three years.

Addressing the emergency shelter and transitional housing needs of homeless persons

The local cold weather emergency shelter, provided by local faith organizations each year as the

Interfaith Rotating Winter Shelter, applies for and receives CDBG funding to provide paid overnight staffing. The overnight staff increase the safety of the program participants and volunteers, as well as provide continuity and predictability in the enforcement of policies and procedures.

Transitional and emergency shelter beds are provided by Davis Community Meals and Housing (DCMH), with the majority of funding for these programs coming from Supportive Housing Program funds. Due to this other funding source, CDBG and HOME funds are not envisioned to be used for this purpose, although a small amount of CDBG funds might be needed from time to time for structural rehabilitation of DCM facilities.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

The City continues to develop new affordable housing units, with a focus on extremely low income units with supportive services, and also continues to rehabilitate existing affordable units. The City uses HOME funds for the purpose of developing these units, and CDBG funds to rehabilitate aging units. Projects in this category include the Rosa Parks project with rehabilitation of 8 units at 60% and 2 units at 50% AMI supporting 45 people. The City is also using an existing land dedication site as a means for developing additional extremely low income units within the next one to two years.

Transitional housing is used to assist in the transition of households out of homelessness when permanent housing is not available, and supportive services offered at the permanent supportive housing locations provide support to residents with the goal of keeping them from returning to homelessness. Lastly, Yolo County Housing's housing choice voucher program and an emergency assistance program through the Short-term Emergency Aid Committee (STEAC), and the rapid re-housing program offered through Yolo Center for Families, also work to keep people out of homelessness.

New Pathways, a collaborative effort, to house individuals who are chronically homeless and provide them with supportive services. New Pathways provides bridge housing and supportive services to individuals who are chronically homeless. The County, the City, Yolo County Housing and Davis Community Meals and Housing work together in a housing first effort to put a roof over the heads of those most vulnerable while permanent housing is secured and to connect them to supportive services.

Getting to Zero, in partnership with HPAC colleagues, Davis Community Meals and Housing and Yolo County Housing, the City of Davis received funding in December 2016 from the Sutter Health Foundation to expand the New Pathways initiative to a more comprehensive Davis Pathways program for adults who are chronically homeless. In addition to the 4-person bridge housing described above, Davis Pathways provides a paid employment training program, a Getting to Zero bridge housing voucher program administered by the Housing Authority, and robust Housing Authority case management focused on housing retention.

The City continues to support the Interfaith Winter Rotating Shelter. Along with HPAC colleagues and a generous business owner, the City has developed a fallback plan to house homeless families who can no longer be accommodated safely (due to space considerations) within the City's Interfaith Winter Rotating Shelter as necessary.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

The City works with Yolo Community Care Continuum, a local non-profit to provide permanent supportive housing for individuals with mental illness exiting homelessness. These programs are funded with other local and federal funds. In addition, the local resource centers in Davis, partially funded by CDBG grants, are focused on individuals and families who are homeless or at-risk of homelessness and provide support services and referrals with the goal of keeping them out of homelessness.

Discussion

One year goals for the number of households to be provided housing through the use of HOPWA for:

- Short-term rent, mortgage, and utility assistance to prevent homelessness of the individual or family N/A
- Tenant-based rental assistance N/A
- Units provided in housing facilities (transitional or permanent) that are being developed, leased, or operated N/A
- Units provided in transitional short-term housing facilities developed, leased, or operated with HOPWA funds N/A

AP-75 Barriers to affordable housing – 91.220(j)

Introduction:

The City of Davis is committed to reducing and removing barriers to affordable housing whenever possible.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

In accordance with programs outlined in the City's Housing Element of the General Plan and discussed in the Consolidated Plan, the City will continue to remove barriers to affordable housing by:

- Exempting all affordable housing and multi-family projects from Phased Allocation Plan requirements under the growth management program.
- Exempting all affordable housing, second units, and vertical mixed-use projects from the one-percent growth cap.
- Granting density bonuses for the provision of affordable housing and housing for seniors, consistent with state law and the City's affordable housing ordinance.
- Reducing parking fees for downtown/core area mixed-use development.
- Maintaining availability of land supply adequate to meet the city's Regional Housing Needs Allocation for housing at all income levels, with review of potential sites for other future housing needs.
- Implementing guidelines for infill development and fee reductions and reduced requirements for infill development comprised of mixed use and condominium development.
- Exempting small projects (fewer than 5 units) and second units from the City's Universal Access requirements.

AP-85 Other Actions – 91.220(k)

Introduction:

As previously discussed, the city has plans in place to address obstacles meeting needs of underserved populations, maintaining and building relationships with service providers, and the maintenance of affordable housing quality.

Actions planned to address obstacles to meeting underserved needs

During the development and drafting of the Consolidated Plan, input from the community and public service providers was collected to identify unmet service and facility needs in Davis. From those discussions, elements were added to the annual Critical Needs list, revised and approved by the Social Services Commission and adopted by the City Council, to guide future CDBG funding applications towards those identified needs - including the creation of a drug and alcohol detoxification center, an increase in services directed towards individuals struggling with mental illness, the development of an adult day care center and microenterprise assistance to qualifying individuals and companies. While it is anticipated these efforts will take multiple program years to address, the identification of these needs through the public input process is critical. The Critical Needs list is updated each year for this reason.

The City is also pursuing the identification of alternative funding sources for public service projects, either proffered through the city or the identification of grants public service organizations can apply for individually.

Actions planned to foster and maintain affordable housing

The City, via CDBG public facilities funds, will assist in the rehabilitation of Community Housing Opportunity Corporation's Rosa Parks affordable rental housing community. The funding should address a long-term solution to the aged and broken plumbing and ensure the units are available to low and very low income households for the future. These funds are being reallocated from program year 2017-2018 that were to be used for the Sojourner project where other funds were used due to the urgent need.

Actions planned to reduce lead-based paint hazards

As stated in the Consolidated Plan, the City's current affordable housing stock did not commence construction until after the adoption of an inclusionary housing policy in 1987, which is after the use of lead-based paint had been prohibited. Therefore, the number of housing units with lead-based paint that is occupied by low- and moderate-income persons and families is quite low.

Actions planned to reduce the number of poverty-level families

The City's anti-poverty strategy is based on preserving housing affordability for very low- and low-income households, maintaining the existing housing stock to provide safe and decent places to live, creating additional affordable rental and ownership units, supporting micro-enterprises through training and workshops and assisting social services agencies that provide food, clothing, and emergency shelter. A number of the public service organizations proposed to receive funding from the CDBG grant for this program year provide assistance to families of extremely-low to low income, and the development of the land dedication site on 5th Street, will provide additional rental units for families and individuals who qualify by income.

Actions planned to develop institutional structure

While the city's existing delivery system of services has been in place for many years and provides important oversight, including public disclosure of funding awards, separate oversight for compliance with federal regulations, and the coordination of many different local organizations with specific specialties, the structure of services outside of the city has also begun a more coordinated approach to service delivery. Through its collaboration with the cities of West Sacramento, Winters and Woodland and the county of Yolo, Davis is participating in the 10 Year Plan to End Homelessness, which emphasizes a coordinated approach to provide support for individuals and families experiencing homelessness.

In addition to the work with the Continuum of Care, in 2015 the City held a homeless summit focused on services and particularly services related to homelessness. As a collaborative of city, county, non-profit, business, faith-organizations, and other community member representatives. As a result of that Summit, the City was able to move forward with New Pathways, including interim rent ready housing, employment opportunities and the Getting to Zero program

The City has developed a Social Services Strategic Plan to address the overall needs of individuals and families within the community. The strategy, which should be finalized during the program year, draws on information learned through extensive public outreach to providers, recipients and other community members, the Critical Needs List developed by the community and specific community needs.

Actions planned to enhance coordination between public and private housing and social service agencies

While the City does not own or maintain any public housing in Davis, a cooperative relationship between the City and the regional housing authority, Yolo County Housing supports both City and YCH programs locally, including affordable housing units and rental vouchers.
