CDPH COVID-19 info: https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/Immunization/nCOV2019.aspx

**How is it Spread?**
- Through droplets when infected person coughs or sneezes.
- Close personal contact, such as caring for an infected person.

**Symptoms**
- Fever
- Difficulty Breathing
- Cough
- Severe Illness

**Traveling OUTSIDE U.S**
- Wash your hands often with soap and water.
- Use an alcohol-based hand sanitizer, if soap and water aren’t available.
- Avoid touching your eyes, nose, and mouth.
- Avoid contact with sick people.
- Avoid animals (alive/dead), animal markets.

**Traveled to China AND Sick?**
- Call your doctor
- Stay home and avoid contact with others
- Don’t travel while sick
- Cover your mouth and nose with tissue or sleeve when coughing or sneezing

**How is it treated?**
There is NO specific treatment for illness caused by a novel coronavirus. However, many of the symptoms can be treated. Treatment will be based on patient’s condition. There is NO vaccine for novel coronavirus.

**What can I do to protect myself and others from respiratory infections like novel Coronavirus?**
- **Stay Home when you are sick**
  - Limit close contact with people who are sick.
  - **Facemasks** are most effective WHEN USED APPROPRIATELY by health care workers and people who are sick.

- **Wash Hands**
  - Wash with soap and water for 20 sec
  - If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol.
  - Clean and disinfect frequently touched objects and surfaces.

- **Cover your cough/sneeze**
  - Use a tissue, then throw tissue into trash.
  - If you do not have a tissue, use your sleeve (not your hands).

- **Get a flu shot to prevent influenza**
  - Get a flu shot if you HAVE NOT done so this flu season.
