Hi Jessica,

Welcome back! I hope you and baby are doing well.

I have browsed through the Draft Housing Element Report and on page 239, in talking about options for protecting the affordability of mobile home renters, there is a note that staff time has already been allocated to this project and a date is given of 2025. Is that the date that the topic will begin to be discussed or the expected completion date of whatever action items are identified?

Thanks for your assistance,

--
