

## CANDIDATE STATEMENT

### **LARRY D. GUENTHER**

Occupation: Small Business Owner, Remodel Contractor

I support fiscal responsibility, sensible city planning, and collaboration with UC Davis. As a self-employed remodel contractor, I listen and problem-solve with my clients, helping them realize their vision while staying within budget. I will do the same for the people of Davis.

I have lived in Davis for 24 years and am married to a UC Davis faculty member. I am a whitewater raft guide and an Eagle Scout, was a Navy rescue swimmer, and earned a master's degree in Geology from UC Davis.

I will bring to City Council a strong, independent voice for neighborhoods and for community input in decision-making.

My priorities are to: make city government more transparent, make growth predictable for both residents and developers, maintain school quality, and address our difficult fiscal situation. Davis needs development with benefits such as affordable housing for families, students, and seniors, not development that costs the City in the long run.

I am a member of the Davis Downtown Plan Advisory Committee, the Old East Davis Neighborhood Association, the Chamber of Commerce, the Odd Fellows, and a volunteer at the California Raptor Center.

I will work to keep Davis fiscally sound, and to carry Davis values into our city's future.
