S. E. May Preservation Month Proclamation – input from Commission.

The Commission accepted by consensus the proclamation of May as Preservation Month, and directed that the proclamation be transmitted to the City Council for adoption.

### Goals

1. **Davis original bike lanes Landmark designation**

   a. HRMC will prepare a report for the designation of the four original bike lanes as Landmarks for City Council action.
   
   b. HRMC will prepare necessary documentation for the nomination of the four bike lanes for inclusion in the National Register.
   
   c. HRMC to request funds for signage to recognize the bike lanes, if designated by the City Council.

2. **City Council Actions – designation of resource.**

   a. HRMC will complete DPR 523 documentation for unsurveyed properties in the Conservation Overlay District Survey and identify any property eligible for designation for Council action.
   
   b. HRMC will review and update documentation for the 2003 surveyed properties in the Overlay District found eligible for designation for Council action.
   
   c. HRMC will review 2003 survey documentation and identity citywide resources deemed potentially eligible for designation and update their DPR 523 forms, and recommend to Council for action any still eligible for designation.
   
   d. HRMC will complete the DPR 523 documentation for architecturally significant properties in the 2015 citywide historical resources survey and present this to Council for action (the 2015 Citywide survey identified 19 architecturally significant properties that require further evaluation for potential designation, including 1 church that appears eligible based on architecture, and 3 individual resources, 2 of which were found eligible).
   
   e. As the custodian of the City’s historical resources inventory, the HRMC will create a master list of designated historical resources, surveyed properties, unsurveyed properties, and reconcile this master list with that of Consultant Mark Hulbert. The consolidated list will be presented to the Council for affirmation and approval as the City inventory.
   
   f. HRMC will compile and review appropriate documentation of potential historic districts recognized in the 2015 survey. That survey identified 14 subdivisions that meet eligibility requirements for designation as district, which are Elmwood (1&2) and University Estates (1-12); conduct public outreach, hold necessary hearings, and present a recommendation to the City Council for action.
