Discussion and Action – Election of new liaison to the Finance and Budget Commission
The Commission decided to defer action on this item until after the Commission determines its work plan and working groups later this year.

Discussion – Commission work plan and associated working groups for the upcoming year
Commissioners reviewed the work plan from the previous two fiscal years, 2015-16 and 2016-17, and discussed possible issues for working groups to focus on in the future. The Commission decided to form working groups and develop its work plan at the February meeting.

Discussion – Update on the process for updating the City’s Integrated Pest Management Policy, which includes an investigation into the feasibility of banning the use of insecticides containing neonicotinoids and the herbicide glyphosate on City property
Staff updated the Commission on the schedule for updating the City’s Integrated Pest Management Policy, and when draft changes to the policy might come before the Commission for review.

Discussion -- Update on lease negotiations with the Center for Land-Based Learning for the farm property at The Cannery
Staff updated the Commission on the status of lease negotiations with the Center for Land-Based Learning (“CLBL”) for the farm property at the Cannery. The Cannery development agreement did not include any requirements or mandates that the urban farm be certified organic. CLBL has repeatedly stated that a small farm such as the Cannery farm cannot afford the cost of certification. In November 2016, as requested, staff prepared two versions of the organics section for the Commission’s review: (1) one version that would allow non-organic pesticides to be used under very limited circumstances (Version 1), and (2) the other version that would not allow non-organic pesticides to be used under any circumstances (Version 2). At its November meeting, the Commission voted unanimously to register its preference for Version 2 and to recommend that the Cannery farm be required to be a certified organic operation.

During the next three months, staff unsuccessfully attempted to reach a compromise between the Commission and CLBL over this issue. Staff discussed the Commission’s action with CLBL shortly after the Commission’s November meeting. Staff discussed CLBL’s position and the Commission’s position with City Councilmember Frerichs on November 16, 2016. Staff and City Councilmember Frerichs met with CLBL on November 22, 2016 and reached a possible compromise. Staff discussed this possible compromise with the full City Council in closed session on December 20, 2016.

At the direction of the City Council, staff informed the Commission at its January meeting that the draft lease going before the City Council on the consent agenda on January 24, 2017 did not contain the language in Version 2, the version preferred by the Commission. Instead, the draft lease going before the City Council on the consent agenda on January 24, 2017 contained the language in Version 1, the version the Commission rejected, and that staff would be recommending the draft lease containing Version 1 to the City Council for approval on that date, as directed by the City Council. Staff also informed the Commission that the full lease would not be coming back to the Commission for approval.
